

Membership Application for the SDSWMA

The Organization

The South Dakota Solid Waste Management Association (SDSWMA) is a non-profit non-governmental umbrella organization for recycling (private, public and volunteer), collection (solid waste and liquid waste hauling and similar) and disposal (landfill, rubble sites and related areas) interest. As the solid waste industry evolves, the members are tending to be in various parts of each of these once separate areas.

The Mission

The mission of the South Dakota Solid Waste Management Association (SDSWMA) is to promote environmentally sound management practices to the solid waste industry participants in South Dakota and the surrounding six states, when applicable.

The Methods

- ◆ provide newsletters identifying industry trends, solutions, opportunities and current activities as they relate to the solid waste industry;
- ◆ provide solid waste, recycling and reuse management and operational training, workshops and seminars (including certification training);
- ◆ provide computer related solid waste information accessible via telephone;
- ◆ support practical and basic research in solid waste, liquid waste and recycling;
- ◆ assist all levels of policy makers and operations with simplified, implementable technical information.

The Benefits of Membership

Members will have the opportunity to network with professionals involved in all aspects of solid waste collection, disposal or recycling and participate in guiding the direction of decisions affecting the proper implementation of environmentally sound solutions in these areas as they pertain specifically to our upper Midwest.

The Intangible Cost

With continual government downsizing and regulatory change, it could easily be argued that the cost associated with potential fines, construction mistakes, poor equipment choices, regulatory misunderstandings, etc. is significantly higher than the cost of dues to be a member. The truth, however, is that our primary function, for our members, is to provide dependable, consistent information and guidance with which they can make good management and operational decisions for their own organization. Our purpose is to clearly and concisely provide the training and information as tools to be used.

The Tangible Cost

Voting Membership Dues	
Individual	\$60
Private Business:	
1 to 15 employees	\$200
16 to 50 employees	\$400
51 to 150 employees	\$550
Over 150 employees	\$900
Government Entity:	
0-500 population	\$60
501-5,000 population	\$100
5,000-10,000 population	\$400
10,001-50,000 population	\$550
Over 50,000	\$750
Non-Voting Membership Dues	
Affiliate	\$60
Student/Senior	\$15

New members may prorate their first year dues on the following formula:

Date Join:	Owe:	Date Join:	Owe:
Oct-Dec	100%	April-June	50%
Jan-March	75%	July-Sept	25%
